

Jonas R. Kirkegaard

Lecturer @ Sonic College, Denmark

jrk@soniccollege.org

Summary

I'm lucky that my biggest hobby is also my job! I love music, sound design and technology and get to work with these things everyday together with 160 dedicated sound design students in my employment as lecturer at Sonic College. My primary educational responsibility include:

- DIY-electronics
- Interaction design
- Composition
- Portfolio design and internship coordination
- International field trips
- Structural education development
- Course evaluation
- Quality assurance

In my spare time I do a lot of different sound related projects including commercial sound design, experimental sound art, electronic DIY-workshops, prototyping.

Experience

Course Coordinator at Sonic College

November 2012 - Present (4 years)

Responsible for:

- Lecturing (composition, Interaction design, DIY-electronics, etc.)
